My log is mainly for your cross-checking and my sign of interest and pleasure.

This is my first participation in the CW OCDX contest as SWL. It was much harder than the phone part. Band conditions were far away from those in the previous weekend. I hope to improve my score next year!!

ON4RFA

Extremely poor conditions, at least in our region. Nice to get 44 contacts with ""down under""! We hope to be more active in the next coming year.

Hard thrill! Used new logging programme. Lost NH2T on 15M - I hit wrong key on my PC - Grrrrr! I did the job for Peter HB9IK. Had plenty of fun and will be back next year for sure.

#### **HB9IK**

Ten days before the contest my ORION collapsed - had to send the logic/DSP board to TENTEC for repair. Only the KX1 was on hand, so I tried to run low power in the contest and was excited when 2 ZL's came back (after some calls). Hope to have more fortune next year.

#### **HB9KT**

My first participation in this contest. I did not take LP and SP into serious consideration. It was very hard to crack the East European ""wall"". Even so I had fun. Will try to do better next year.
